Seborrhoeic dermatitis

RIVESCAL DS SOOTHING GEL

Based on **0.5% Piroctone Olamine**

Reduces redness and flakiness

PARABEN-FREE

50 ml/1.69 fl. oz. tube

Description

Soothing gel is a specific treatment for skin redness and flakiness occurring in the face, specific body areas and the hairline. It is based on 0.5% Piroctone Olamine, which keeps the proliferation of *Malassezia furfur* under control, the latter being the trigger for the skin condition. Also includes Glycerophosphoinositol and *Zanthoxylum bungeanum*, which help to reduce redness and itch.

Benefits

Counters and prevents itch, redness and flakiness, typically seen in skin affected by seborrhoeic dermatitis.

How to use

Apply 1-2 times a day on affected skin areas. Do not rinse.

Contains

- **0.5% Piroctone Olamine:** effective anti-fungal agent. Has an important antiseptic effect, partly due to its antioxidant properties and also thanks to its intrinsic broad-spectrum antibacterial activity
- Glycerophosphoinositol and *Zanthoxylum bungeanum*: soothing and anti-itch agents.

Ingredients (INCI)

AQUA, CAPRYLIC/CAPRIC TRIGLYCERIDE, DI-C12-13 ALKYL MALATE, ALUMINUM STARCH OCTENYLSUCCINATE, AMMONIUM ACRYLOYLDIMETHYLTAURATE/VP COPOLYMER, OLUS OIL, ALLANTOIN, NIACINAMIDE, UREA, CAPRYLYL GLYCOL, PIROCTONE OLAMINE, 1,2-HEXANEDIOL, OLEYL ALCOHOL, HYDROGENATED VEGETABLE OIL, PARFUM, CANDELILLA CERA, LACTIC ACID, ZANTHOXYLUM ALATUM EXTRACT, SODIUM HYALURONATE, GLYCEROPHOSPHOINOSITOL, LYSINE, TROPOLONE, ETHYLHEXYLGLYCERIN, PHENOXYETHANOL.
