

Seborrhoeic dermatitis

## RIVESCAL DS SOOTHING MOUSSE

Based on **0.5% Piroctone Olamine**

Reduces redness and flakiness.  
Ideal for the face, body and scalp

*PARABEN-FREE, PERFUME-FREE*

100 ml/3.38 fl. oz.

### Description

RIVESCAL DS Soothing mousse is a treatment recommended to soothe itch and redness typically triggered by flaky, seborrhoeic skin conditions affecting the body and scalp. It is based on 0.5% Piroctone Olamine, which keeps the proliferation of *Malassezia furfur* under control, the latter being the trigger for the skin condition, and Salicylic Acid to reduce the flakiness. Also includes Glycerophosphoinositol, which helps to reduce redness and itch.

### Benefits

Counters *Malassezia furfur*, thus preventing redness and flakiness. Ideal also for the scalp.

### How to use

Face and body: apply once/twice a day. No rinsing required. Scalp: apply it, let it sit for 5-10 minutes and then rinse. Shake well before use and dispense product in the palm of the hand while holding the can upside down.

### Contains

- **0.5% Piroctone Olamine:** effective anti-fungal agent. Has an important antiseptic effect, partly due to its antioxidant properties and also thanks to its intrinsic broad-spectrum antibacterial activity
- Salicylic Acid: having an exfoliating effect, helps to remove skin flakes, thereby normalising skin
- Glycerophosphoinositol: soothing and anti-itch agent

# CANOVA®

## Ingredients (INCI)

AQUA, ALCOHOL, BUTANE, PROPYLENE GLYCOL, SALICYLIC ACID, CETEARYL ALCOHOL, PEG-20 STEARATE, PROPANE, ISOBUTANE, GLYCERIN, UREA, PHENOXYETHANOL, SODIUM HYDROXIDE, PIROCTONE OLAMINE, SODIUM LAUROYL SARCOSINATE, TOCOPHERYL ACETATE, ETHYLHEXYLGLYCERIN, GLYCYRRHETINIC ACID, DISODIUM EDTA, GLYCEROPHOSPHOINOSITOL LYSINE.
