

Dermatitis and sensitised skin

EFADERM SOOTHING CREAM

Based on **2% Borage Oil**

Soothes redness and skin irritation.

PARABEN-FREE

50 ml/1.69 fl. oz. tube

Description

EFADERM cream is recommended as a daily aid treatment for sensitive, dry skin, prone to flakiness. The formula is based on 2% Borage Oil, rich in Omega-6 essential fatty acids, which promote the proper restoration of the skin barrier function and protection against environmental agents that trigger irritation.

Benefits

Protegge le pelli più delicate e sensibili dall'irritazione, prevenendo i rossori. Lenisce l'irritazione già presente.

How to use

Apply cream on cleansed skin one or more times a day by gently rubbing in until fully absorbed.

Contains

- **2% Borage Oil:** helps to restore the skin barrier function, thus better protect against environmental agents that trigger irritation.
- 18-β-Glycyrrhetic acid: counters skin redness
- Allantoin: counters skin dryness by restoring the ideal water content in the epidermis
- Vitamin E: has a scavenger effect on free radicals, thus protects cell membranes from lipid peroxidation
