Dermatitis and sensitised skin

EFADERM SOOTHING MOUSSE

Based on **2% Borage Oil**

Soothes redness and skin irritation.
Ideal for larger body areas.

PARABEN-FREE

200 ml/6.76 fl. oz. can

Description

EFADERM Soothing mousse is recommended as a daily body treatment for dry, sensitive skin, skin prone to flakiness. Includes 2% Borage Oil, rich in Omega 6 fatty acids, and soothing and re-epithelising ingredients, which help to properly replenish the hydrolipid layer and to protect skin from environmental irritation triggers. The soft mousse texture it comes in is easy to apply, does not leave skin oily and is absorbed rapidly without leaving any residue.

Benefits

Protects very sensitive skin from irritation and prevents redness. Soothes irritation whenever present.

How to use

After cleansing skin, apply once or more times a day until product is fully absorbed. Shake well before use and dispense product holding the can upside down.

Contains

- **2% Borage Oil:** helps to restore the skin barrier function, thus better protect against environmental agents that trigger irritation.
- Phytosterols: counter skin redness
- Allantoin: counters skin dryness by restoring the ideal water content in the epidermis
- Vitamin E and Coenzyme Q10: have a scavenger effect on free radicals, thus protect cell membranes from lipid peroxidation

CANOVA®

Ingredients (INCI)

INGREDIENTS: AQUA, OCTYLDODECANOL, PEG-8 BEESWAX, PROPYLENE GLYCOL, HYDROGENATED STARCH HYDROLYSATE, BUTANE, PARAFFINUM LIQUIDUM, BORAGO OFFICINALIS SEED OIL, ETHYLHEXYL METHOXYCINNAMATE, STEARIC ACID, PROPANE, ISOBUTANE, TOCOPHERYL ACETATE, UREA, SODIUM LAUROYL SARCOSINATE, DIMETHICONE, BRASSICACAMPESTRIS STEROLS, BUTYL METHOXYDIBENZOYLMETHANE, ALLANTOIN, PARFUM, CLIMBAZOLE, LITHIUM CARBONATE, CARBOMER, TRICLOSAN, TETRASODIUM GLUTAMATE DIACETATE, LYSINE THIAZOLIDINE CARBOXYLATE, LYSINE CARBOXYMETHYL CYSTEINATE, UBIQUINONE.
