

Rosacea and couperose

SENSIVEN P22 SOOTHING CREAM

Based on **2.5% Soothing Complex***

Reduces the typical redness of rosacea, strengthens capillaries, reducing their visibility.

PARABEN-FREE

50 ml/1.69 fl. oz. tube

Description

Specific protective treatment containing a soothing complex* based on Aescin, which helps to protect and strengthen skin vessels. Reduces skin redness and attenuates the typical blemishes skin affected by rosacea and couperose shows. Protects skin from environmental agents that trigger skin irritation.

(*) Soothing complex with: 0.2% Aescin - 1.5% Horse Chestnut extracts and 0.2% Centella asiatica - 0.5% Allantoin - 0.3% Jojoba Oil.

Benefits

Reduces skin redness and imperfections typically showing in skin with rosacea, soothes itching. Protects skin from environmental factors responsible for skin irritation.

How to use

Apply 1 – 3 times a day after cleansing skin by gently rubbing until product is fully absorbed.

Contains

- **2.5% Soothing Complex:** has a protective effect, reduces skin redness.
- Aescin and Centella Asiatica: work on skin microcirculation, protect and strengthen capillaries.
