Based on **2% Salicylic Acid**

Purifies skin and reduces blemishes.  
Suitable for the face, larger body and hair-covered areas

*PERFUME-FREE, PARABEN-FREE*

100 ml/3.38 fl. oz. bottle

### Description

SALIPIL Purifying spray is a lotion specifically formulated to help to prevent and keep under control the main symptoms of acne-prone skin and to treat folliculitis. Salipil Spray is recommended for use on larger body areas, such as the back, the chest and the shoulders. It is based on a functional 2% concentration of Salicylic Acid, which is exfoliating and keratolytic. The product is also comedolytic and anti-inflammatory and is particularly useful as a complementary treatment in the therapy of mild to moderate acne.

### Benefits

Keeps pores cleared, thereby preventing the formation of comedones. Preserves softness and hydration of skin.

### How to use

Apply twice a day on well cleansed skin.

### Contains

- **2% Salicylic Acid:** has exfoliating and sebum-regulating properties. Favours the improvement of acne blemishes
- Betaine: has been shown to be active on Propionibacterium acnes and to possess broad-spectrum antimicrobial properties
- Capryloylglycine: well known for its moisturising properties, it is useful for reducing excessive dryness of the skin and clear flakiness from the skin surface

### Ingredients (INCI)

AQUA, ALCOHOL DENAT. BETAINE, SALICYLIC ACID, CAPRYLOYL GLYCINE, SODIUM HYDROXIDE.
